

Burleigh's

Burleigh's Gin

This Leicestershire gin was born in June 2014 and takes inspiration from its surroundings, especially nearby Burleigh Wood. From their base at Bawdon Lodge Farm, the 45 West Distillery team draw on a unique mix of local botanical inspiration, including silver birch, dandelion, burdock and elderberry.

This quest to capture the true spirit of artisan distilling has resulted in a portfolio of four exceptional London Dry Gins, each with a Leicestershire accent and together appealing to everyone from traditionalists to today's new wave of gin enthusiasts.

At 40% ABV, Burleigh's Signature captures the essence of this brand, showing off its 11 botanicals in a crisp, vibrant and pine-scented smooth style that is ideally suited to a refreshing G&T.

Showcasing the same ratio of botanicals at a more robust 47% ABV, Burleigh's Export Strength has an aromatic profile that really shines in a Martini or Negroni. At the same strength but with a more floral, sweeter balance of ingredients, sits the Distiller's Cut.

A more recent addition to the core range is Burleigh's Pink Edition. Inspired by a visit to Tokyo during the springtime Hanami festival, this floral and delicate expression layers cherry blossom, hibiscus, rose and pink grapefruit on top of the Burleigh's recipe to create a smooth, very easy drinking gin. Try it with Fever Tree Aromatic Tonic and a slice of fresh pink grapefruit.
