

### Otle Brewing Company

At Otley the key words are quality and innovation. This family run Welsh brewery has been impressing judges at festivals for over a decade now, including winning Champion Beer of Wales in both 2006 and 2008, the same year that two of its beers scooped Best In Class at CAMRA's Champion Beer of Britain awards.

Under the watchful eye of head brewer Charlie Otle, the company produces an expansive collection of premium beers, ranging in style from its refreshing O4 Colombo Golden Ale to the highly individual O8 Epic – a Golden Ale like no other:

Not content with simply brewing, the Otle family's interests extend to a group of pubs around Pontypridd, offering an ideal showcase for these beers, which also enjoy national distribution through craft specialists.
